EXPERIENCE

Legato Health Technologies, Hyderabad — Software Engineer

NOV 2021-Present

Working on an internal product which is more on cloud based operations and merging multiple platforms and making developer life much easier for post development activities.

Hidden Brains, Ahmedabad — Software Engineer

January 2019-OCT 2021

Worked on projects with various domains, tools, and technologies. Got an opportunity to explore myself from a junior web developer to a project lead.

Crazy about UI and UX, at the same ensuring best back-end practices, flexible with any new tools and technologies

SKILLS

Quick decision making
Flow Defining
Team Leading
Database Structuring

CERTIFICATES

[Certified Angular Developer by Pluralsight](#)

[Certified Node Developer by LinkedIn](#)

[Certified Javascript Developer by LinkedIn](#)
